YET ANOTHER STAMP OF A PRESTIGIOUS APPROVAL

Metarolls Ispat does it yet again!
First Steel Mill to have been awarded the prestigious NABL ACCREDITATION for our well equipped modern Laboratory!

HERE ARE OUR OTHER **FIRSTS** ...

FIRST TO MAKE TMT

FIRST TO HAVE LRF

FIRST AND THE ONLY COMPANY TO MAKE HOT ROLLED THREADED RE-BARS

NABL certification simply means that our laboratory is one of the finest and better equipped to ensure quality of steel. It also means that you know that **Metarolls TMT** bars are of the highest quality.

Besides the **NABL certification** also means that if any steel manufacturer wants to get high quality and impartial lab reports for their own products, Metarolls lab is the final answer!

BENEFITS OF NABL FOR STEEL MANUFACTURERS

Assurance of genuine reports from accurately calibrated testing

It creates a sense of faith and trust performing tests

Elimination of the need for re-testing thereby saving money & time

Satisfaction from the services provided

It makes you stand out among other laboratories

Accuracy that has no match

Exceptional level of control

So then if you are looking for pure steel that will ensure long life to your construction, Metarolls TMT bars are your final answer!

And if you are a steel manufacturer, you know where to get a reliable test report for your steel. That too without having to go to far away laboratory. Saves time and money too!

Gut No. 48, Adjacent to M.I.D.C., Phase II, Dargaon, Jalna - 431203 (MH) India.
